

Free Website Analysis

Please complete the following and with a 10-minute phone call, we'll endeavor to learn your most important goals for your company and your website. If we seem like a match (geography, familiarity with your markets, ability to meet your goals, etc.) we'll devote an hour or more to providing recommendations for your web presence to help you achieve your goals.

We'll need about 20-30 minutes to review our recommendations with you. At that point, we can shake hands and part friends or decide to pursue a relationship as your web presence partner. Either way, on the delivery of our recommendations we'll be pleased to provide you with an autographed copy of WebForging: A Practical Guide to the

Art of Forging Your Web Presence.

We typically reply within one business day.
