

Migrating Domains to New Server Cluster (SM2010030101)

We are going to be migrating domains to a new server cluster over the next couple of weeks to allow for the expansion of services, the continued availability of services, and the ease of administration of our network. After careful planning and preliminary work, we expect zero downtime for all domains as we move them. If you have any questions, please feel free to contact us at support@onyourmark.com.
