

We're proud to have an
accessible website

INTERNATIONAL DAY OF
PEOPLE WITH DISABILITIES

Partner accessiBe

Partner accessiBe - Today is International Day of People with Disabilities! We're proud to support the rights of **#PeopleWithDisabilities** with an **#accessible** and **#ADA** compliant website!

#IDPD2020 #WebAccessibility #accessibility #accessiBe

International Day of People with Disabilities

The observance of the Day aims to promote an understanding of disability issues and mobilize support for the dignity, rights and well-being of persons with disabilities. It also seeks to increase awareness of gains to be derived from the integration of persons with disabilities in every aspect of political, social, economic and cultural life.

Thanks for celebrating accessibility with us today, and every day.

About accessiBe

The World-Leading Web Accessibility Technology

accessiBe is a game-changer in web accessibility, making the entire process to full compliance 100% automatic and immediate, using machine-learning and computer vision technologies.

HERE'S HOW IT WORKS

accessiBe utilizes two applications that together achieve full compliance. The accessibility interface is responsible for all the UI and design-related adjustments, while the AI-powered background process handles optimizations for screen-reader and for keyboard navigation (the most complex requirements).

Automatic Screen-Reader adjustments Powered by AI

Using the contextual understanding and image recognition, accessiBe's AI scans and analyzes websites to learn what elements and functionality they include, and adjusts them to blind users' screen-readers

Your website's *security* and users' *privacy* are top priority

We implement the highest industry standards and practices in regards to both the security of the websites we operate on and the privacy of their users. Trusted by industry leaders, you know you are in good hands.
