

Progressive Web Apps (PWAs) are user experiences that have the reach of the web, and are:

- **Reliable** - Load instantly and never show the downasaur, even in uncertain network conditions.
- **Fast** - Respond quickly to user interactions with silky smooth animations and no janky scrolling.
- **Engaging** - Feel like a natural app on the device, with an immersive user experience.

This new level of quality allows Progressive Web Apps to earn a place on the user's home screen.

That is from Google's Developer page
at <https://developers.google.com/web/progressive-web-apps/>

OnYourMark, LLC has created a Progressive Web App for every premium client!

Progressive Web App Instructions:

Here are the instructions to get the PWA - Progressive Web App - on your android smartphone or tablet.

How to Access the Progressive Web App (PWA) on an Android Phone?

- Open <https://www.SampleNameHere.com/> (where SampleNameHere.com = your domain name) in the browser of your Android Phone.
- You'll see a notification button, click on "Add to Home Screen".
- It will create a shortcut icon on your Android phone.
- This icon saves the site as a Progressive Web App.
- Click on the icon to open App. The App also works in Offline Mode.
