

Our backbone provider at TW Telecom will be doing network maintenance on their switches on Friday, June 13, 2008 (yes Friday the 13th, I didn't pick it) which will result in periods of downtime starting at midnight and lasting for approximately 1 hour. OnYourMark support staff will be on hand to ensure all services are in working order when network connectivity is returned. We will make an update to this post when the upgrades have been completed.

If you have any questions, please feel free to contact the support team at 1-800-747-3399 or email them at support@onyourmark.com.
